HTML/CSS	●●●●●	Backend Development	●●●○○
JavaScript	●●●●○	Database Management	●●●○○
Responsive Design	●●●●●	Restful APIs	●●●●○
Frontend Frameworks	●●●●●	Problem Solving	●●●●●

PROJECTS

Amazon-Clone
Creater

It is a perfect clone of Amazon; you can add items to your cart seamlessly. Additionally, I have integrated a secure payment gateway provided by Stripe for smooth and safe transactions. I have utilized React.js and Firebase, allowing users to log in with their email IDs. Moreover, MongoDB has been employed to store client data efficiently.

Movie Browser
Creater

In this movie browser, you can search for any movie and view its popularity, as well as learn about the plot, cast, and reviews. We are fetching the movie data from the TMDB website, which is a movie browser website like IMDb. Explore a vast collection of films and discover hidden gems or popular blockbusters with ease.

Fact-App
Creater

It's a web application designed for sharing your thoughts. Developed using HTML, CSS, and React, this platform enables users to express themselves freely. Messages shared by users are seamlessly stored in Supabase, ensuring reliability and accessibility. Additionally, we are leveraging APIs to fetch and display relevant data, enhancing the user experience.

Netflix-Clone
Creater

I have utilized HTML and CSS to craft a straightforward yet visually appealing frontend website. With clean and intuitive design elements, users can navigate seamlessly through the site to access the desired information or features

Brand Page like Nike
Creater
It's a comprehensive brand page dedicated to Nike, meticulously crafted
using HTML and CSS to ensure a seamless user experience.

EDUCATION

B.E in Computer Engineering
B.R. Harne College of Engineering *Nov 2022 - May 2025*

Diploma in Computer Engineering
A.R. Kalsekar Polytechnic *Aug 2019 - Jun 2022*
